**Debjani Ghosh** President, NASSCOM

**Pari Natarajan** CEO, Zinnov

In 2018, Indian start-up ecosystem regained momentum after the slowdown of previous two years. The year was marked with dramatic increase in number of unicorns, resurgence in investments, and rapid growth in advanced technology in start-up ecosystem. India continues to be the 3rd largest start-up ecosystem in the world, with the overall start-up base in India expected to cross 7500, a growth of 12-15% from last year.

Multiple indicators point that the Indian start-up ecosystem is approaching escape velocity, and is setting itself up for a period of sustained growth. The total number of Indian unicorns more than doubled, with 8 start-ups being added to the list – highest number in any year till date. The number of advanced technology start-ups increased by 50% from 2017, with Data Analytics, Artificial Intelligence and IoT witnessing the fastest adoption. Indian start-up ecosystem continued to attract investor interest with almost \$4.2 Bn of funding in 2018 (Jan to Sep), demonstrating 108% growth over the same period in 2017.

The number of new start-ups incepted in 2018 is likely to increase to 1200+ from 1000+ in 2017. Apart from the growth, we are starting to see an increasingly heterogeneous mix of start-ups – number of women founders has increased to 14% in 2018 from 11% last year, more Tier 2/Tier 3 cities are emerging as start-up hubs, and more experienced professionals are taking entrepreneurial route.

In addition, the start-up ecosystem is becoming more global – Indian start-ups (both B2B and B2C) are expanding to other markets, and global giants are gravitating towards India. There are 14+ active Government-backed international start-up exchange missions supporting Indian start-ups in their Global ambitions.

The fourth edition of the NASSCOM-Zinnov report titled "Indian Start-up Ecosystem – Approaching Escape Velocity, Edition 2018" is a compilation of facts, trends, and insights on the Indian Tech Start-up landscape. The report examines the evolution of the ecosystem, its growth drivers, and highlights the role played by investors, incubators/ accelerators, and the Government.

We hope this report is useful to you and we welcome your feedback and comments at <u>research@nasscom.in</u>.

**NASSCOM®** 

This report has been co-developed by **NASSCOM** and **ZINNOV MANAGEMENT CONSULTING** through a comprehensive three-month study to understand the Technology Product & Digital Start-up Landscape in India.

This report analyses the following -

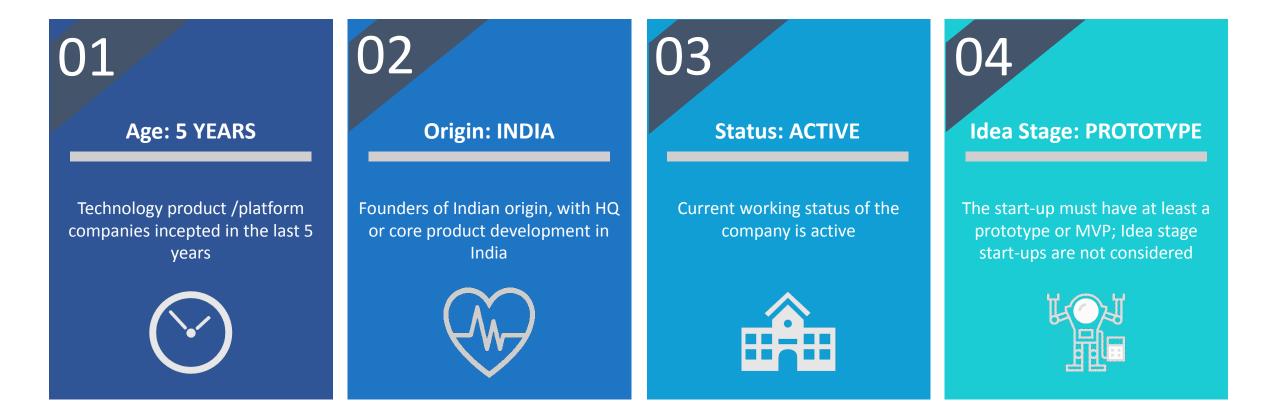

- Current scenario and emerging trends that define the Indian start-up ecosystem
- India's position as a global start-up hub that is becoming attractive for investors, start-ups & corporates
- Role played by Ecosystem enablers like Incubators/Accelerators, Govt. policies in nurturing the start-up ecosystem

**NASSCOM®** 

## **START-UP:**

An entity working towards innovation, development, deployment, and commercialisation of new products, processes, or services driven by technology or intellectual property

## Indian Start-up Ecosystem: Approaching Escape Velocity Edition 2018

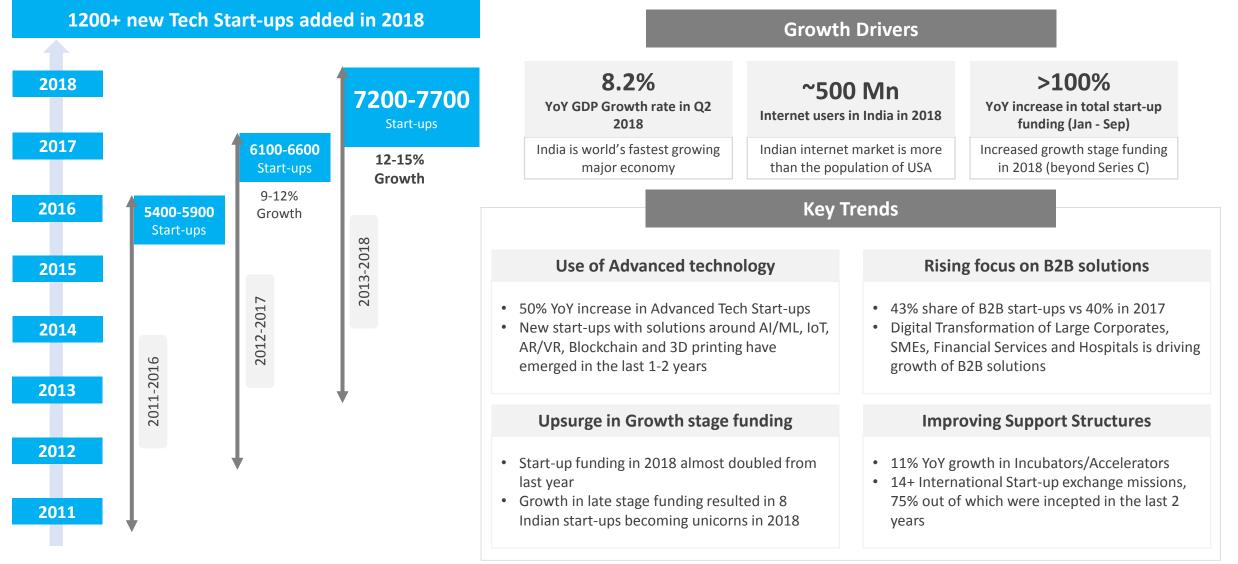

01	Start-up landscape in India
02	Industry Vertical Deep-dive
03	Advanced Tech Deep-dive
04	Start-up Ecosystem Enablers
05	Govt. Initiatives & Policies
06	Funding Trends
07	M&A Trends
08	Start-up Founders
09	Others
10	Appendix

Landscape Growth and Trends Adoption of advanced technology in B2B start-ups and improving support structures are driving growth in the Indian start-up ecosystem

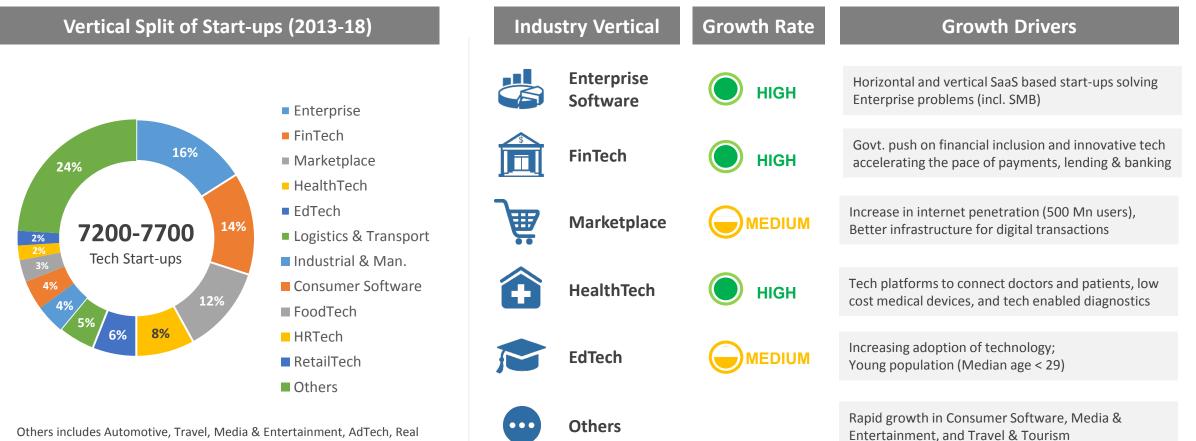

#### Landscape Vertical Analysis

## Enterprise Software, FinTech, Marketplace and HealthTech together comprise of ~ 50% of total start-ups

Others includes Automotive, Travel, Media & Entertainment, AdTech, Re Estate, Gaming, Security, etc.

- Enterprises are increasingly looking for digital solutions to their enterprise problems, and Indian start-ups are tapping into this market
- IN 2017 and 2018, the no. of FinTech start-ups incepted have been more than the no. of Enterprise Software start-ups

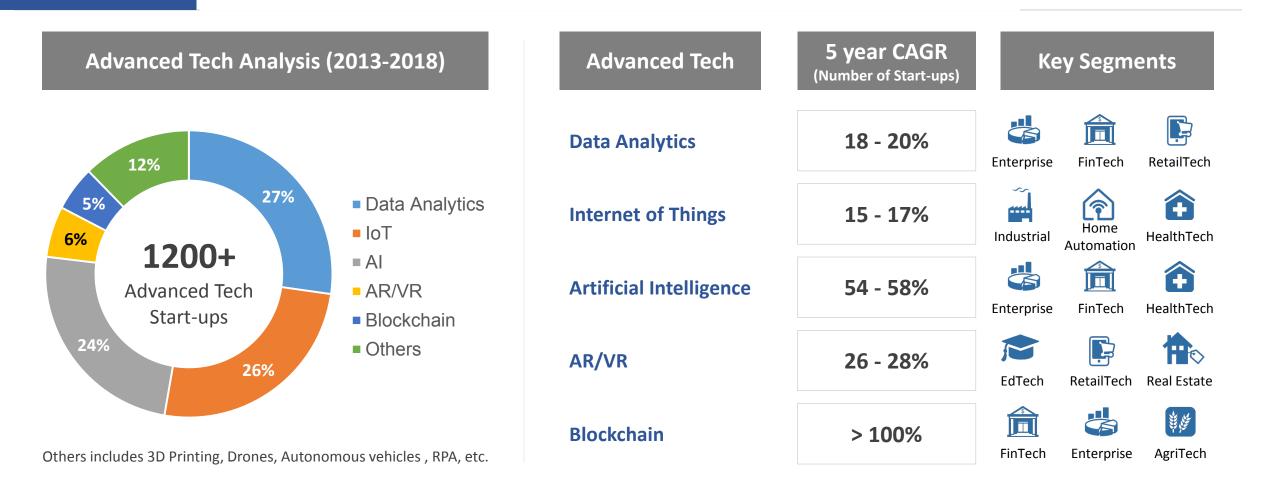

\*Note – Reclassified E-Commerce to Marketplace in 2018 report. Marketplace includes start-ups that provide product/services from multiple sources; Sell goods & services on the internet. The vertical e-commerce aggregators have been included as a part of their industry vertical. E.g. Aggregator of educational services and products is a part of EdTech, and not Marketplace

Zinnov CoNXT Research & Analysis

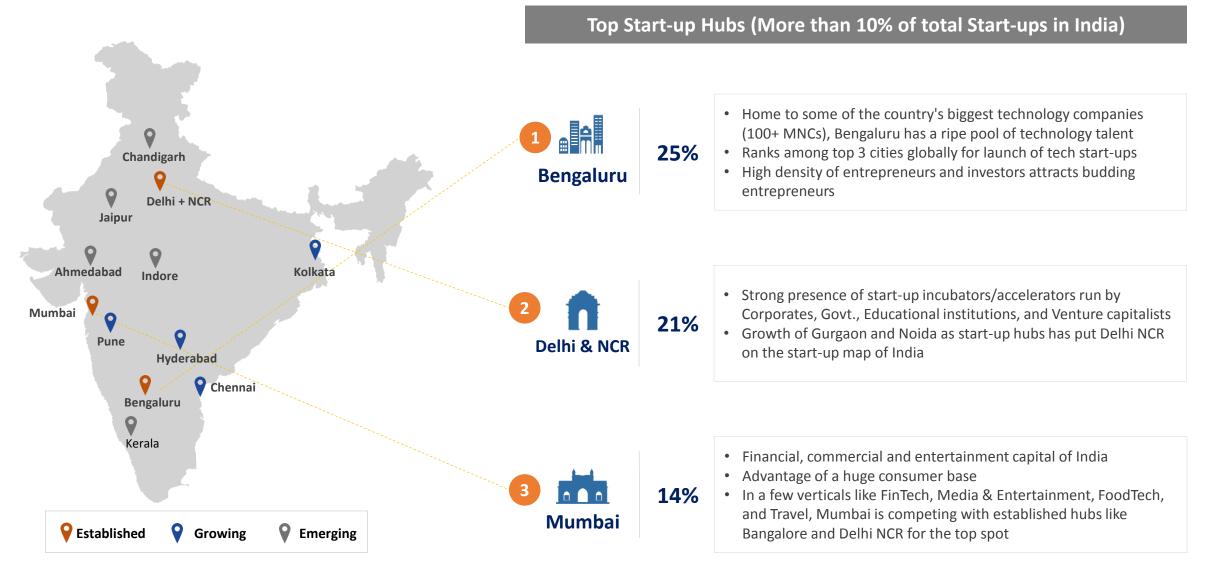

Landscape Advance Tech Analysis

Advanced Technology start-up pool is expanding rapidly at 40% CAGR since 2013

**NASSCOM®** 

- Artificial Intelligence, Data Analytics and IoT are witnessing fastest adoption across Industry verticals
- 120% YoY funding growth for AI Start-ups (Over \$150 Mn invested in 2018)
- 500% YoY (\$2 Mn to \$11 Mn) growth for Blockchain funding (though on a smaller base)

Note: Illustrative list of Startup Hubs included

#### 0 ore

Set up an R&D centre in Bengaluru in 2017 to bolster payment platforms

## **Ж**..com

R&D center in Bengaluru, 6 manufacturing plants in India

#### ЕK sia

Set up a development center in India in 2016 by acquiring two start-ups - C42 Engineering and Codelgnition

### rk

WeWork office spaces are present in 10+ locations across 3 Indian cities - Mumbai, Bengaluru & Delhi NCR

Note: Illustrative list of startups included

#### Landscape Global Start-up Trends

### The start-up epicenter of the world is shifting towards Asia

## Emergence of Asia as a start-up hotspot

- China's share of global unicorns has risen from 14% to 35%
- India produced 8 unicorns in 2018
- 30% increase in funding to Asia Pacific countries in the past 4 years

#### Rise of Advanced Technology

- Global funding in AI Startups has grown at 5 year CAGR of ~70%
- The global IoT market is expected to grow at a CAGR of 29% till 2020. Smart cities, Industrial IoT and Connected Health are the top sub verticals

#### Boom in Global Start-up funding

Tech-centric Curriculums, Incubators & Co-working Spaces

- 2018 saw record investments for late stage companies
- YoY funding in late stage companies is increased by 1.5 times compared to 2017

- Educational institutions are creating focused curriculum for advanced technology
- Tech centric co-working spaces, niche incubators have come up in the last 2-3 years

#### Landscape Country Comparison

#### India continues to be 3<sup>rd</sup> largest start-up ecosystem in the world

	USA	China	India	U.K	Germany	Israel
Number of Unicorns	126	77	18	15	6	4
Unicorns in 2018	25	20	8	2	4	2
Avg. Time to Unicorn (Years)	6 - 8	4 - 6	5 - 7	7 - 9	6 - 8	5 - 7
Avg. valuation per Unicorn (\$ Bn)	~3.5	~3.8	~2.4	~2.3	~2.1	~1.2

8 Unicorns added in 2018, the most in a single calendar year

India moved to 57<sup>th</sup> rank in Global Innovation Index, up from 60<sup>th</sup> in 2017<sup>1</sup>

Bengaluru ranks among top 3 cities globally for launch of tech start-ups<sup>2</sup>

<sup>1</sup>GII ranking published by Cornell University, INSEAD, World Intellectual Property Organisation; <sup>2</sup>Based on the list of top global start-up ecosystems compiled by Small Business Prices

#### Landscape Business Model

## New and Innovative business models are starting to emerge in the Indian start-up ecosystem

Note: TBI - Technology Business Incubators, NIDHI - National Initiative for Development and Harnessing Innovations, SIDBI - Small Industries Development Bank of India, AIM – Atal Innovation Mission; AIC - Atal Incubation Centers, ATL - Atal Tinkering Labs; PRAYAS - Promoting and Accelerating Young and Aspiring technology entrepreneurs; EIR – Entrepreneurs-in-residence Illustrative list of Policies included; Source: Official StartuphubIndia website

#### **Govt. Initiatives** State Policies

State Governments continue to maintain policy focus on start-ups with few evolving schemes based on ecosystem demands

## NASSCOM®

#### 20 States have policies/schemes under the Start-up India Program in 2018 compared to 15 States in 2017

- Karnataka: Incentives to start-ups in association with Corporates like Amazon, IBM, Microsoft etc.
- **Chhattisgarh:** Partnerships with Wadhwani Foundation's NEN for conducting workshops, mentoring sessions and college outreach
- Telangana: Partnered with corporates that support start-ups under T-Hub initiative
- Karnataka: Rs. 10 Cr. Fund for Women Entrepreneurs
- Telangana: Rs. 15 cr. Fund for Women Entrepreneurs
- Haryana: Collaboration with United Nations to promote Women Entrepreneurship
- Chhattisgarh: Offers mentorship to incubate start-ups under its 36 Inc. program
- Uttar Pradesh and Kerala: Established a common mentor pool to offer start-ups Business and Technical Guidance

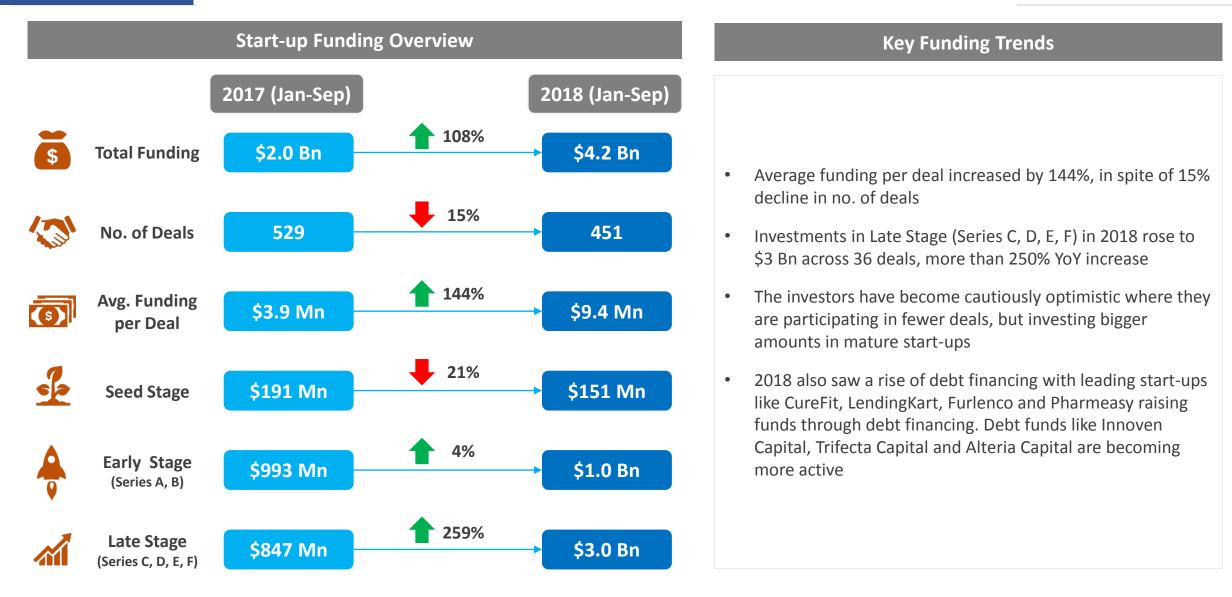

- Rajasthan: Launched an online platform 'iStart' for easy access to information and funding
- Odisha: Built an online platform for application, evaluation and disbursement of incentives
- **Telangana:** Introduced TSiPASS to provide timely clearances, self-certification, etc.
- Kerala: Kerala Start-up Mission (KSUM) has been created for assisting start-ups with idea implementation
- Karnataka: Setup a govt. supported Start-up Cell
- Tamil Nadu: Govt. aided Fintech start-up Incubator to be set up
- Andhra Pradesh: AP Innovation Society has been established
- Maharashtra: Maharashtra State Innovation Society (MSInS) has been established
- Many other states have established Innovation Societies to create world class innovation ecosystem

**Others** Changing Mix of Start-ups

#### New trends are shaping India into a more holistic start-up ecosystem

Others
Social Start-ups

**NASSCOM®** 

#### Structured institutional support for early stage Start-ups to tap into Global markets

E.g. - JETRO promotes business collaboration between Japan and other leading start-up ecosystems

#### Move beyond Start-up hub to Sector specialists hubs

Aligning state policies to help create sector hubs / technology hubs E.g. London is a FinTech hub, Tel Aviv is a Cybersecurity hub

#### Supportive Government procurement processes and policies

Start-ups have the potential to disrupt service delivery system of government and public sector; Government needs to open itself up as a market for start-ups. Overall policies need more predictability

#### **Focused support for Advanced Tech Start-ups**

Advanced Tech Startups need support for testing, certifications, global marketing, patent filing

#### Bringing focus on capability building in Incubators and Accelerators

While there is growth in number of incubators/accelerators - there is a lack of mentors, training programs, and tool kits to make programs successful. Need more focus on outcomes and tangible value addition.

NASSCOM is the industry association for the IT-BPM sector in India. A not-for-profit organization funded by the industry, its objective is to build a growth led and sustainable technology and business services sector in the country. Established in 1988, NASSCOM's membership has grown over the years and currently stands at over 2,500. These companies represent 95 percent of industry revenues and have enabled the association to spearhead initiatives and programs to build the sector in the country and globally. NASSCOM members are active participants in the new global economy and are admired for their innovative business practices, social initiatives, and thrust on emerging opportunities.
